BILLIARD.

BILLIARD TABLES.—WE CALL THE ATTENTION OF the public in general, and those who wish to purchase for private or public use, to call at our factory, 90 Ann street, and examine our new invented curshions, of uperior elasticity, combined with meatures. These cushions being our own invention, we have sparred no time or expense to bring them to a certain degree of perfection attained by no others. In the first place these cushions are made of three compositions, and not of the common rubber which is now in general use, and becomes hard and loses the elasticity in a very short time, but these cushions remain the same for years, and do not change with the climate. Having given our personal attention for a number of years to this particular part of the table, we are confident that there is not any other cushions equal to them in the United States or Europe. Having one set up in our warercome, we invite the public in general to call and examine or themselves.

GREFTITE & DECKES, 90 Ann street. M. LARMONT, PARIS AND LONDON PHYSICIAN
